

Indiana Injury Prevention Advisory Council/
Indiana Trauma Taskforce Injury Prevention Subcommittee
January 15, 2009
10 am-12 noon

Present: Susan Perkins, Matt Howard, Gene Reiss, Stephanie Berry, Kira Hudson, Tracie Pettit, Jodi Hackworth, Angela Plank, Nina Ray, Barbara Cole, Tammy Chadd, Dawn Daniels, Sylon Benjamin

Conference Call-in: Donna Meyers, Debbie Poole, Mary Raley, Paula Kreska, Vicki Stuffie

Item	Discussion	Decision/Conclusion	Action Needed
10:00-10:10 Welcome and Brief Introductions	Dawn opened meeting by welcoming all who braved the frigid cold and all those who were conferencing in. Members from both the IP advisory council and the IP task force subcommittee were invited to attend.	There was a very good turn out and an opportunity for both groups to become acquainted. Our goal is to continue to meet as a group for several months.	
Review of Minutes	Minutes from October 3, 2008	Reviewed and motion to accept by Kira Hudson, Seconded by Susan Perkins. Minutes approved without changes.	
10:10-10:30 Overview of ACS Visit Susan Perkins, ISDH Trauma Manager	Susan shared with the group a slide presentation that was delivered by the ACS at the conclusion of the consultation visit. (The slide presentation was sent out by Susan in previous e-mails).	All who are interested in receiving a copy who didn't receive one earlier may contact Susan.	Recommendations from the consultation will drive the efforts of the group as a state-wide trauma system is developed.
10:30-10:40 Summary of Injury Prevention Results Jodi Hackworth, ISDH	Jodi reported on the results of the statewide IP survey from last fall. (Please see attached slides and handout).	Jodi recommended that we re-survey to determine if the programs are working and the outcomes are positive. The group had a lengthy	None at this time—will need to be followed up on as we progress in our development.

Injury Epidemiologist		discussion on programs which were either ineffective or ineffective with unintended consequences.	
10:45-10:55 STIPDA/Public Health Framework	Dawn presented an overview of the core functions of public health, how that compares to trauma system components, the public health model, and an overview of STIPDA core system components for injury prevention. An overview of the primary national/professional organizations for injury prevention were presented (APHA, STIPDA, SAVIR)		None. The slides are attached to the minutes.
10:55-11:15 Premises for our Work	Mary presented to the group the principles she and Dawn have selected from other states best practices and strategic plans.	We will use these and other premises to develop our strategic plan. This is only an initial draft.	Please review the premises and send any comments to Mary and Dawn.
11:15-11:50 Workgroups	<p>In order to begin the foundational work needed, we will begin with four workgroups. We would like each group to include members from different parts of the state. The four workgroups are:</p> <p style="text-align: center;">Communication Objective: To identify effective methods for “meetings” in large state</p> <p style="text-align: center;">Training Objective: To develop training curriculum for injury prevention specialists and pilot with injury prevention specialist at Level 1 and 2 Trauma centers</p> <p style="text-align: center;">Data/Surveillance Objective: Conduct gap</p>	<p>Communication: Mary discussed the need for video conferencing due to the size of the group and the number miles many participants have to drive to Indianapolis. Can be challenging and is safety when the weather is bad. Several hospitals have video capabilities and representatives at the meetings were asked to serve on this committee.</p> <p>Training: Mary discussed the need for state wide training based on the core competencies as developed by SAVIR-STIPDA joint committee on</p>	<p>Please let Mary know by January 22, 2009 which workgroup you would like to serve on. We will then pull the information together and send to the group so that work can begin in February. We would also like volunteers to serve as co-facilitators for each of the workgroups who will work with Mary and Dawn.</p> <p>Before the next meeting, please go to the following</p>

	<p>analysis of all available injury databases Objective: Increase use of e-coding within Indiana Hospital Discharge Database</p> <p><i>Development (may be tentative until final report and political issues determined)</i> Objective: To develop organizational structure for the future</p>	<p>Infrastructure Development and a certification in IP were discussed.</p> <p>Data/Surveillance: Dawn discussed the need to conduct an analysis of injury databases that are available. We also discussed the need to increase e-coding within the hospital discharge database. Currently, there are no population based injury databases within the state (except for data from Indiana Poison Control). There will not be a bill mandating the reporting of e-codes during this legislative session. A lengthy discussion on this issue followed. Dawn discussed the need to examine issues within hospitals who currently collect e-codes, but whose e-codes don't always get reported into the hospital discharge data base. It will be important to work on these issues before we approach those hospitals that currently don't collect e-codes. This group will work closely with the Indiana Hospital Association on this issue.</p> <p>Infrastructure Development: Dawn discussed the purpose and role of the development workgroup to draft vision, mission, bylaws, structure, etc in the months ahead.</p>	<p>web site of the national training initiative for injury and violence prevention (http://www.injured.org) and take the injury prevention self-assessment. Please be sure to copy off each page as you take the assessment (if you hit the back button, it won't keep your score). We will go over the answers at the next meeting.</p>
Next Meeting	Mary and Debbie from St. Mary's	Group agreed to change time.	

	Trauma Center in Evansville requested that the next meeting be changed to 11 AM—1 PM due to a 3-4 hour drive.	Next meeting is March 19, 2009 in Indianapolis at ISDH from 11am to 1pm. A motion to adjourn was presented by Susan Perkins and seconded by Angela Plank.
